

FSC ScandTag Thermo NTC 10

FACESTOCK

ScandTag thermo NTC 10 is a white, woodfree paper, with black imaging thermosensitive coating . - It is designed for short term use in relatively clean and dry environments, where there are no requirements for - surface protection against contaminants or scruffing. - It can be printed with all commonly used technologies for roll converting, including water and uv-based flexo, uv - letterpress et.c., if inks and varnishes designed for direct thermal paper is used. - We recommend customers to assess both pre-print and thermal print characteristics under end-use conditions - before proceeding to long runs. - This thermal paper has a standard/high sensitivity, making it suitable for print speeds up to 200 mm/s, - depending on printer settings. - This product does not contain Bisphenol A. - It is recommended that customers assess both the pre-print and the overprint characteristics under end use - conditions before proceeding to long runs.
